

Public Notice

U.S. Army Corps Of Engineers Galveston District	Permit Application No: _____	23326
	Date Issued: _____	8 March 2004
	Comments Due: _____	7 April 2004

U.S. ARMY CORPS OF ENGINEERS, GALVESTON DISTRICT

PURPOSE OF PUBLIC NOTICE: To inform you of a proposal for work in which you might be interested. It is also to solicit your comments and information to better enable us to make a reasonable decision on factors affecting the public interest. We hope you will participate in this process.

AUTHORITY: This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act.

APPLICANT: Davis Petroleum Corporation
1360 Post Oak Boulevard, Suite 2400
Houston, Texas 77056-3052

AGENT: John T. Jakubik & Associates, Inc.
4309 Greenbriar Drive
Stafford, Texas 77477-4205
Telephone: 281-240-0498
POC: John Jakubik

LOCATION: The project is located in Texas State Tracts 99, 100, 113, 114, 131, and 205. The proposed well is located in State Tract 99 in Galveston Bay, Chambers County, Texas. The well can be located on the U.S.G.S. quadrangle map entitled: Smith Point, Texas. Approximate UTM Coordinates: Zone 15; Easting: 319657; Northing: 3277583.

The first proposed pipeline will be installed from the proposed well to the second proposed pipeline in Galveston Bay, Chambers County, Texas. The tie-in location for the two proposed pipelines can be located on the U.S.G.S. quadrangle map entitled: Smith Point, Texas. Approximate UTM Coordinates: Zone 15; Easting: 320577; Northing: 3276794.

The second proposed pipeline will be installed from a previously permitted well location to an existing pipeline. The previously permitted well can be located on the U.S.G.S. quadrangle map entitled: Smith Point, Texas. Approximate UTM Coordinates: Zone 15; Easting: 320792; Northing: 3277140. The tie-in location at the existing pipeline can be located on the U.S.G.S. quadrangle map entitled: Bacliff, Texas. Approximate UTM Coordinates: Zone 15; Easting: 316728; Northing: 3274393.

PROJECT DESCRIPTION: The applicant proposes to erect and maintain structures and to perform work to drill and produce the ST-99 Well No. 1. This activity consists of the permanent placement of a 30-foot by 7-foot well platform and a 70-foot by 70-foot production platform. During drilling operations the applicant will place 2,667 cubic yards of shell, gravel, or crushed rock for the marine barge pad. The barge pad will cover 24,000 square feet of mud bottom in Galveston Bay.

Upon successful completion of the well, the applicant proposes to install an 8-inch pipeline for the production of the well. The first pipeline will be 2,162 feet long and connect the well to a second proposed pipeline. The applicant will bury the pipeline a minimum of 3 feet below the mudline by trenching, boring, or jetting.

The applicant also proposes to install a second 8-inch pipeline from a previously permitted well, ST-100 Well No. 1, to an existing pipeline. The second proposed pipeline will be 15,447 feet long. The applicant will bury the pipeline a minimum of 3 feet below the mudline by trenching, boring, or jetting. There will be 11,310 total cubic yards of bay bottom material displaced during installation of both pipelines. The applicant's plans are enclosed in 8 sheets.

NOTES: This public notice is being issued based on information furnished by the applicant. This information has not been verified.

A preliminary review of this application indicates that an Environmental Impact Statement (EIS) is not required. Since permit assessment is a continuing process, this preliminary determination of EIS requirement will be changed if data or information brought forth in the coordination process is of a significant nature.

Our evaluation will also follow the guidelines published by the U.S. Environmental Protection Agency pursuant to Section 404 (b)(1) of the Clean Water Act (CWA).

STATE WATER QUALITY CERTIFICATION: Texas Railroad Commission certification is required.

NATIONAL REGISTER OF HISTORIC PLACES: The staff archaeologist has reviewed the latest published version of the National Register of Historic Places, lists of properties determined eligible, and other sources of information. The following is current knowledge of the presence or absence of historic properties and the effects of the undertaking upon these properties:

The State tracts proposed for work under this permit application are included in the Texas Antiquity Committee's list of State land tracts containing State Archaeological Landmarks. Therefore, the proposed activities may affect pre-20th-century shipwrecks.

THREATENED AND ENDANGERED SPECIES: Preliminary indications are that no known threatened and/or endangered species or their critical habitat will be affected by the proposed work.

ESSENTIAL FISH HABITAT: This notice initiates the Essential Fish Habitat consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Our initial determination is that the proposed action would not have a substantial adverse impact on Essential Fish Habitat or federally managed fisheries in the Gulf of Mexico. Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the National Marine Fisheries Service.

PUBLIC INTEREST REVIEW FACTORS: This application will be reviewed in accordance with 33 CFR 320-330, the Regulatory Programs of the Corps of Engineers, and other pertinent laws, regulations and executive orders. The decision whether to issue a permit will be based on an evaluation of the probable impacts, including cumulative impacts, of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefits, which reasonably may be expected to accrue from the proposal, must be balanced against its reasonably foreseeable detriments. All factors, which may be relevant to the proposal, will be considered: among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shore erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs and, in general, the needs and welfare of the people.

SOLICITATION OF COMMENTS: The Corps of Engineers is soliciting comments from the public, Federal, State, and local agencies and officials, Indian tribes, and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Impact Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

This public notice is being distributed to all known interested persons in order to assist in developing facts upon which a decision by the Corps of Engineers may be based. For accuracy and completeness of the record, all data in support of or in opposition to the proposed work should be submitted in writing setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

PUBLIC HEARING: Prior to the close of the comment period any person may make a written request for a public hearing setting forth the particular reasons for the request. The District Engineer will determine whether the issues are substantial and should be considered in the permit decision. If a public hearing is warranted, all known interested persons will be notified of the time, date, and location.

CLOSE OF COMMENT PERIOD: All comments pertaining to this Public Notice must reach this office on or before **7 April 2004**. Extensions of the comment period may be granted for valid reasons provided a written request is received by the limiting date. **If no comments are received by that date, it will be considered that there are no objections**. Comments and requests for additional information should be submitted to:
